

The Strategist Agile Business Leader®

"Having Industry Knowledge, Operational Intelligence and Ethical Practices"

Customized Program For Your Organization's Needs

In the role of Strategist, the ABL understands reality and expects that things may not go as planned, thriving on unplanned opportunities and creating the future by visualizing it. The Strategist is intuitive, with a vision based on ethical business values, and is always asking, "What's next?" "Where else?" and "Why not?" Because of this inquisitive nature, the Strategist helps create a sense of identity for people in the organization by galvanizing followers and keeping interest and motivation high.

What Participants Will Learn To:

In the role of Strategist, a leader responds to the realities of needing to be business-focused and at the same time needing to achieve action. The Strategist is focused on helping the business grow and mobilizing and transforming people to make that happen.

The four traits of the Strategist are

- Change Leadership
- Strategic Adaptability
- Resources for Innovation
- Path to More Profitability

The Strategist helps design an organization's infrastructure to support every aspect of innovation by helping to create or modify the organization's collective values, beliefs, attitudes, and behaviors. Strategists develop their traits through seven competencies:

Change Leadership:

1. Create and communicate vision and values.
2. Promote change.

Strategic Adaptability:

3. Think strategically.
4. Develop strategic solutions.

Resources for Innovation:

5. Recognize and rectify specific inefficiencies.
6. Resolve issues through innovation.

Path to More Profitability:

7. Ensure good ideas come to fruition.

Our Approach:

Our approach to this requirement is pure and simple: to equip global leaders to perform with excellence. The program is designed to enable participants to do their jobs better, faster, more accurately and efficiently through a combination of education and learning activities.

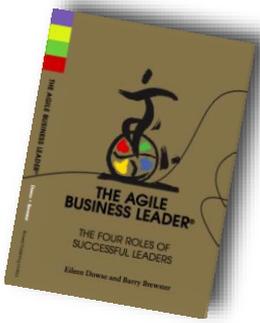

Who Should Attend:

The program is designed to provide leaders with a primer on practices and tools for functioning in a world of complexity, chaos, interdependency and ambiguity. Based on your needs, we will customize the established program to meet your goals.
